

2023 Water Features
Product Catalog

You are reading this catalog digitally

which fits perfectly with our corporate green initiatives. We are all living in a connected world today which is why being able to escape to “Living the Aquascape Lifestyle®” where you live and often work, is more important than ever!

Nothing, and I mean nothing, will melt your stress away like the sound of water while feeding your fish and watching the birds take a bath in your stream. Ahhh ...”Living the Aquascape Lifestyle” personified!

Aquascape has been dedicated to improving the consumers' experience with water features for 32 years and counting. Still to this day, we are the only manufacturer of water feature equipment on the planet that builds and maintains water features every day with our own crews! We are able to “talk the talk, because we walk the walk.” We create the products we ourselves need as water feature artists and want as hobbyists!

As you scroll through this catalog you'll be immersed into a world to help people escape the stresses of this world. From Aquascape ecosystem ponds designed to “Work With Mother Nature, Not Against Her” to Pondless® Waterfalls that bring the sights and sounds of natural waterfalls to your living space and fountainscapes to fit whatever design element you're going for!

Please enjoy the labor of our love for all things decorative water feature related!

And welcome to “Living the Aquascape Lifestyle!”

Table of Contents

Living the Aquascape Lifestyle®

We connect people to water the way nature intended. That's why we invented and patented an ecosystem approach to designing, building, and maintaining water features that relies on a natural balance of circulation, filtration, plants, fish, and rocks and gravel to ensure sustainability.

Our passion is to help you create your own personal paradise that incorporates a beautiful pond, waterfall, fountain - or any combination of these refreshing water features.

With decades of experience designing and field-testing water features and their products, you can rest assured that you're getting the best quality for the best value when you choose Aquascape. Flip through the pages of this catalog and be inspired to create your own personal paradise in your very own yard.

Fire and Water Spillway Basin

Excite your senses with this CSA-approved, auto-ignite, fire and water feature. [See page 151](#)

AquaGarden Maintenance 4-in-1

This treatment is formulated specifically for use with Aquascape AquaGardens and other small container water gardens. This 4-in-1 formulation combines an ecosystem bacteria blend with special clarifiers, scale reducers, and foam reducers to keep your feature clean, clear, and maintenance free. [See page 116](#)

Faux Basalt Columns

Provide the natural look of Mongolian basalt columns at a fraction of the weight! [See page 158](#). Also available in a kit. [See page 25](#)

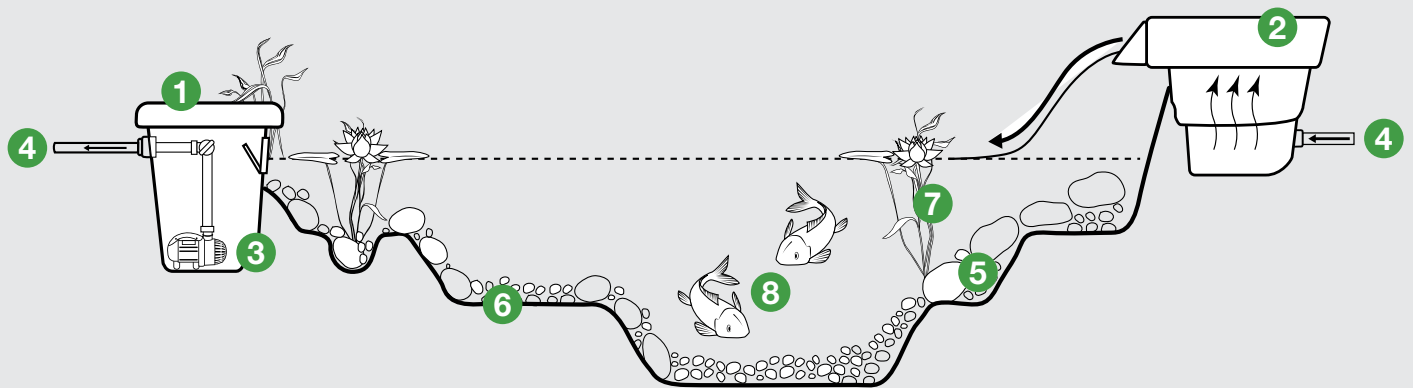

A lush backyard garden featuring a pond with a waterfall. The pond is surrounded by greenery, including lily pads and bright orange flowers. A decorative crane stands near the water's edge. In the foreground, a black Adirondack chair is partially visible. The background shows a wooden fence and trees.

Pond, Waterfall, and Fountain Kits

Transform your outdoor living space with an Aquascape pond, waterfall, or fountain kit. We've bundled the necessary components into convenient kits, making it easier than ever to create naturally balanced, low-maintenance water features.

Features

- 1 Pond Skimmer**
Pre-filters water, houses pump, collects debris, and reduces maintenance
- 2 BioFalls® Filter**
Provides surface area for beneficial bacteria to colonize and remove excess nutrients from the water
- 3 Pond Pump**
Pumps water from the pond skimmer to the BioFalls Filter to create a waterfall
- 4 Pipe**
Directs water from the skimmer to the BioFalls Filter
- 5 Rocks and Gravel (not included)**
Protects the liner, naturalizes the pond bottom, and provides surface area for beneficial bacteria to break down excess nutrients
- 6 Pond Liner and Underlayment**
Forms the pond's foundation, containing the water and allowing gases to escape from beneath the pond
- 7 Plants (not included)**
Filter pond water, minimizing maintenance and improving water conditions
- 8 Fish (not included)**
Provide nutrients for pond plants and reduce maintenance

Aquascape AquaBlox® Water Storage Modules provide structural void space for water storage in Pondless® Waterfalls, rainwater collection projects, and other water features.

Features

- 1 Snorkel® Vault**
Provides an easy way to remove captured sediment from wetland filters. Simply drop in a cleanout pump to quickly clean the system.
- 2 Large Centipede® Module**
Sits at the lowest point to ensure maximum water distribution and allows for efficient sediment removal during cleaning
- 3 AquaBlox®**
Provides water storage
- 4 Rubber Coupling**
Creates a water-tight seal
- 5 Flex PVC Piping**
Directs water to Centipede Module
- 6 Rocks and Gravel**
Provides valuable filtrations while naturalizing the wetland area

IonGen™ System G2

Control Panel

Use to adjust ionization levels and indicates when probe is exhausted

Electrical Connections

Quick-connects simplifies installation

Flow Chamber

Positions probe at an angle to prevent clogging and optimize results

#95012 IonGen™ System G2

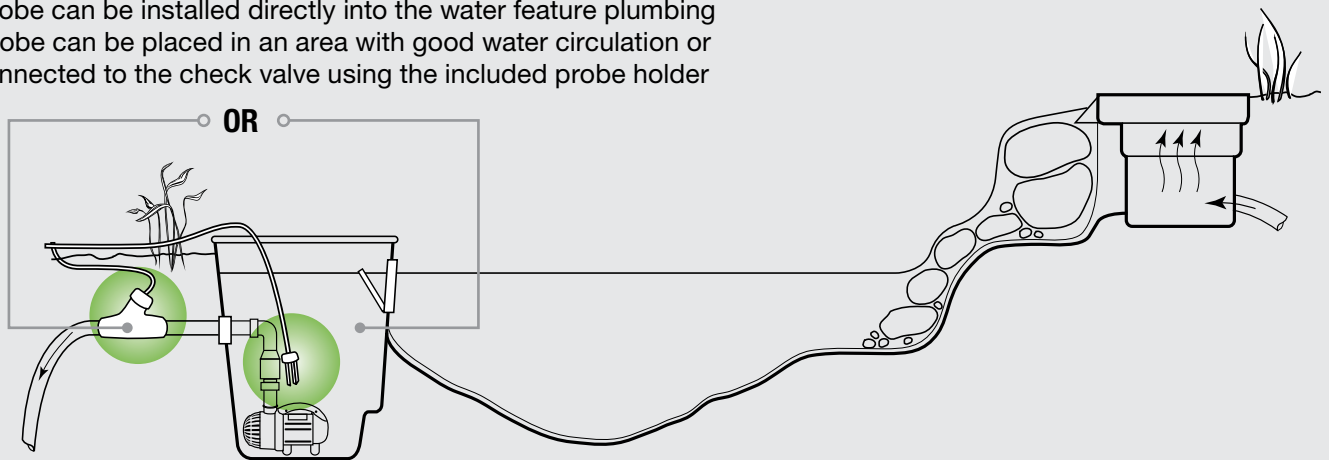

Packaged Weight: 5 lb.

Packaged Dimensions: 18"L x 4.5"W x 14"H

MSRP: \$569.98

Option 1: Probe can be installed directly into the water feature plumbing

Option 2: Probe can be placed in an area with good water circulation or connected to the check valve using the included probe holder

SAY GOODBYE TO Unsightly Debris!

The following accessories and test kits can be used in conjunction with the IonGen™ System.

#95016 IonGen™ Probe for the G2 System

- For 2nd generation flow chamber
- Includes 5 foot quick-connect cable

Packaged Weight: .5 lb.
Packaged Dimensions: 3"L x 2"W x 6"H

MSRP: \$207.98

#95077 IonGen™ G2 Probe Holder

- Allows for installation of G2 Probe without flow chamber
- Can be used in a filter, such as a skimmer or a Pondless® Waterfall Vault
- Straps onto any pipe or check valve from 1-4 inches in diameter

Packaged Weight: 1.5 lb.

MSRP: \$25.98

#96020 Copper Test Kit

- Measures residual copper
- 25 tests per kit

Packaged Weight: .2 lb.
Packaged Dimensions: 4"L x 1.5"W x 5"H

MSRP: \$38.98

#96019 KH/Alkalinity Test Kit

- Measures KH/alkalinity
- 60 tests per kit

Packaged Weight: .2 lb.
Packaged Dimensions: 4"L x 1.5"W x 5"H

MSRP: \$38.98

Pond, Waterfall, and Fountain Pumps

Pumps are the heart of any water feature, circulating water and providing aeration to help create a stable ecosystem.

Control The Flow of Your Waterfall

With an Aquascape Adjustable Flow Pump

Turn up the pump speed for a more voluminous “party-style” waterfall, or dial it down for a quieter, more relaxing waterfall. Options include AquaSurge®, SLD, and AquaForce®.

AquaSurge®

SLD

AquaForce®

Smart Control Receiver

Adjustable flow pumps include the Aquascape Smart Control Receiver to provide on-board flow control adjustment and the option to connect pumps to the Aquascape Smart Control App.

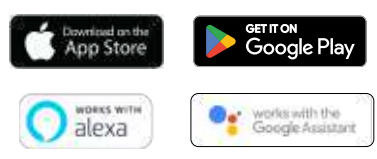

Features

- 1 WiFi Pairing Light
- 2 Integrated Control Panel
- 3 Flow Adjustment Controls
- 4 On/Off Controls
- 5 Hang Tag
- 6 Injection-Molded Housing

Smart Control App

With built-in WiFi connectivity you can control pumps from anywhere using your smartphone or tablet!

Connecting to the App provides a variety of wireless control functions, including flow adjustment, customized scheduling, and the ability to monitor your energy usage.

How to Choose a Pond Pump

Did you know our website can walk you through the process of finding the right pump for your water feature?

[▶ Click here to go through the automated steps to find the perfect pump for every situation.](#)

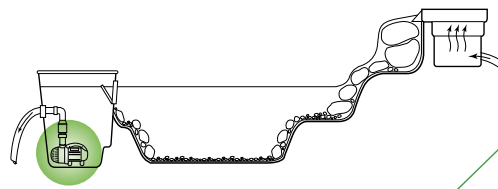

STEP 1

Calculate Your Pump Requirements

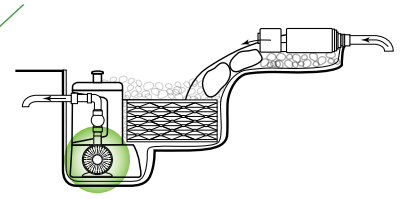

Find your recommended flow rate and water feature type

The screenshot shows a web form with the following fields: 'Pond Dimensions' (Length in Feet, Width in Feet, Avg Depth in Feet), 'Waterfall Width' (Width in Inches), 'Head Height' (Elevation in Feet, Pipe Length in Feet, Pipe Diameter), and a 'Calculate' button at the bottom.

Confirm Your Water Feature Type
Pond or Pondless Waterfall?

Pond

Pondless®

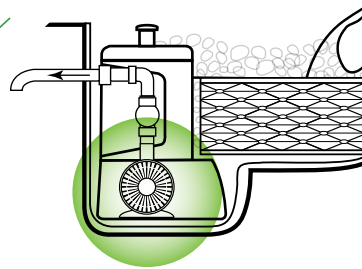

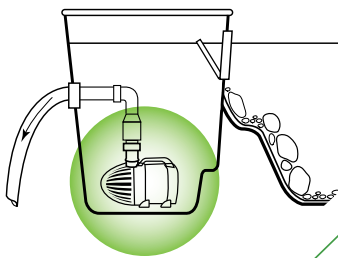

STEP 2

Choose Your Pump Location

For use in a pond skimmer, Pondless Waterfall Vault, or directly in the pond.

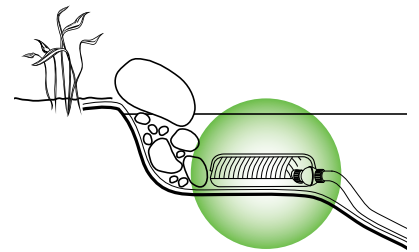

Pond Pumps

For Use in Pond Skimmers or Pondless® Waterfall Vault

In-Pond Pumps

For Use Directly in the Pond

STEP 3

Choose Your Pump Model

Select a pump model that best suits your needs!

Low Maintenance,
Solids-Handling Pumps

Energy-Efficient Pumps

In-Pond Pumps

AquaSurge® Pond Pump

Locking Knob

Allows for quick and easy cage removal

Smart Control Receiver

Provides on-board flow control adjustment and connects to the Aquascape Smart Control App

(For use with the adjustable flow pump models only)

Ceramic Shaft

Unique ceramic shaft and cooling port prevent pump from overheating

Asynchronous Motor

Makes this pump more powerful and more efficient than traditional pond pumps

AquaSurge® 5000 Pond Pump Shown

AquaJet® Pond Pump

Diverter and Flow Control

Allows water to be used for fountainhead, circulation, and additional equipment like spitters or external filters and waterfalls

Adjustable Height

The adjustable riser stem allows for easy height adjustment from 10 to 20 inches

Pump Cage Clips

Makes it easy to open to perform pump maintenance or remove debris

AquaJet® 1300 Pond Pump Shown

Add a New Dimension to Your Pond

Each AquaJet pump comes complete with riser stems, multi-hose fitting, diverter valve, and three fountain heads, including foaming jet, daisy and waterbell

Foaming Jet

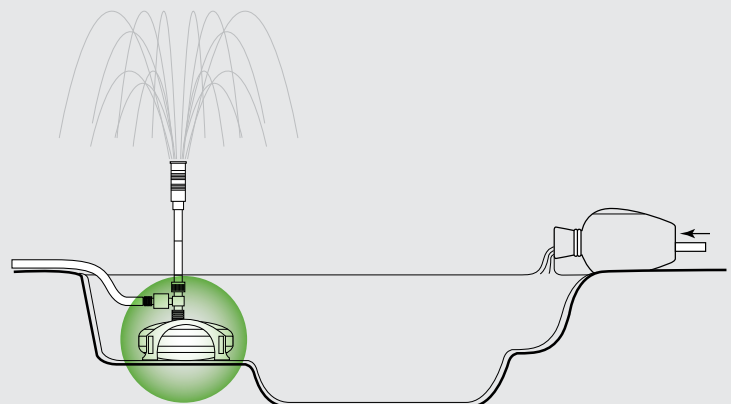

Daisy

Waterbell

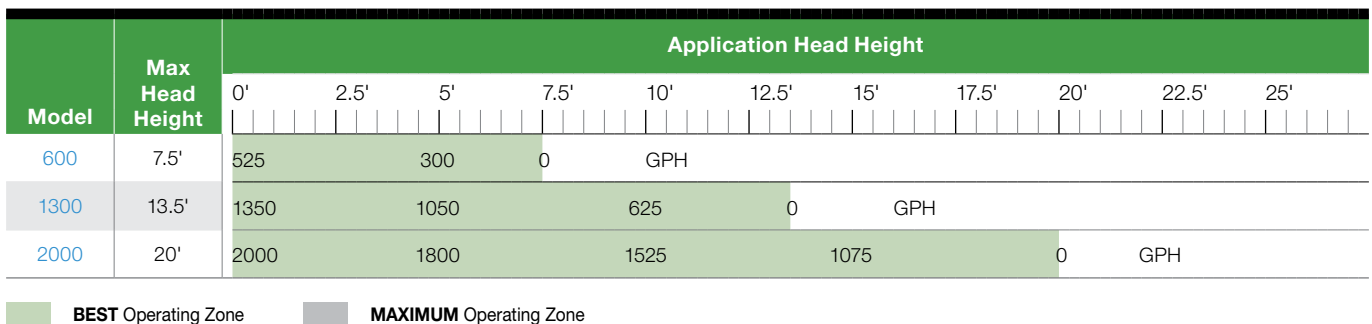

The AquaJet protective pre-filter cage allows the pump to be placed directly into the pond.

Pond Powerhead

Propeller

Designed to provide water movement in stagnant areas of the pond

Standalone Pump

Does not require any pipe or plumbing

Adjustable Head

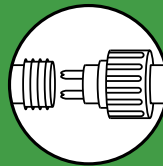

Allows for directional flow control

Pond Powerhead Shown

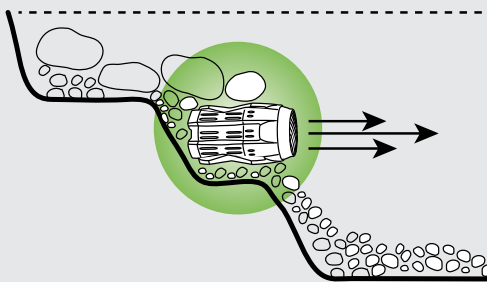

Requires Low-Voltage Transformer
Minimum 60W low voltage transformer required (Sold Separately)

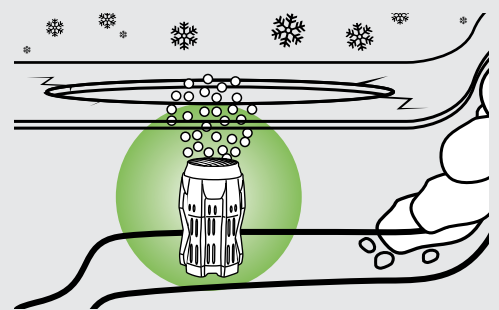

Compatible with Aquascape Quick-Connect Splitters and Extension Cables [See page 89](#)

Typical Application

The Aquascape Pond Powerhead is designed to create water movement and eliminate stagnant areas in ponds and water gardens.

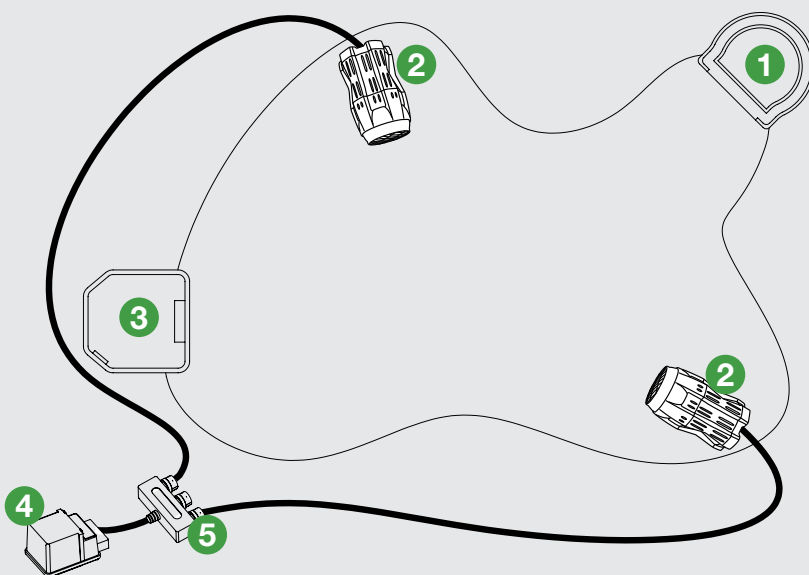

Winter Application

Stand on end and create surface agitation in the winter months helping to keep a hole in the ice for proper gas exchange.

Understanding Aeration

Every biological process that occurs in ponds is dependent on oxygen. This is especially important in warmer temperatures or at night when plants are not converting sunlight into oxygen. Pond aerators supply dissolved oxygen directly to ponds and other water features, helping all biological processes and resulting in healthier fish and plants.

Color-Changing Light Extension Cables

The Aquascape color-changing lighting extension cables allow for simple extension of Aquascape color-changing lighting. They are ideal for use with our 12-volt quick-connect transformers and 3-way and 6-way splitters. The 12-volt quick-connect components eliminate the need to cut wires and provide a weatherproof seal. Not compatible with Aquascape LED white lights.

Color-Changing Light Splitters

Aquascape color-changing splitters provide a simple connection of 3 or 6 color-changing fixtures to a single power source. Multiple 3-way and 6-way splitters can be chained together to attach additional fixtures. Not compatible with Aquascape LED white lights.

Aquascape Simple Solutions Water Treatments Are Designed to Make Your Life Easier!

By combining our best water treatments into four treatments for ponds and two for waterfalls and fountains, we have a solution for the most common water feature issues. Choose a simple pump top or use the dosing system versions and prepare to be amazed at the results.

Simple Solutions Treatments for Ponds

Maintain for Ponds

Staple water treatment for ponds, designed to keep ponds clean and healthy

What It Does

- Reduces maintenance
- Supports a healthy ecosystem
- Provides healthy and crystal-clear water conditions

How It Works

- Combines our most effective water treatments into one powerful formulation (like a multivitamin)
- Uses a beneficial bacteria blend, phosphate binder, flocculant clarifier, and detoxifier

Clear for Ponds

Use to clear unsightly water conditions, including cloudy and discolored water

What It Does

- Clarifies water and resolves water quality problems
- Mitigates cloudy or discolored water and issues with debris attached to rocks and gravel

How It Works

- Uses a concentrated formula of clarifiers and a phosphate binder which work to prevent and eliminate issues with water clarity and debris buildup

Clean for Ponds

Use to naturally reduce organic sludge and debris

What It Does

- Reduces organic waste caused by uneaten fish food, fish waste, and leaves or debris
- Naturally cleans rocks, gravel, and filters
- Keeps ponds looking clean and clear

How It Works

- Uses a powerful blend of heterotrophic bacteria to digest organic waste and sludge

Protect for Ponds

Use to protect pond fish such as koi and goldfish. Great for use after transporting/handling fish or cleanouts.

What It Does

- Reduces fish stress
- Prevents parasites and infections
- Accelerates healing of superficial wounds, scrapes and breeding abrasions

How It Works

- Uses an all-natural formulation of tea tree oil and other plant-based biopolymers

Simple Solutions Treatments for Fountains and Waterfalls

Prevent for Fountains

Staple product for fountains, cleans and clarifies

What It Does

- Controls white-scale buildup, foam, and stains
- Helps to clear unsightly water conditions and debris that attaches to surfaces

How It Works

- Contains a special blend of clarifiers and scale remover that will not damage fountain surface

Note: Not for use with water features containing fish

Clean for Fountains

Used to clear unsightly suspended debris

What It Does

- Keeps waterfalls and fountains clean, clear, and healthy
- Reduces maintenance and improves water quality

How It Works

- Uses a flocculant clarifier and phosphate binder to help clear and prevent debris

NEW

Application Options

Choose between simple pump top options or one of our Automatic Dosing Systems which automatically add treatment, so you don't have to!

SL Dosing System ●

Ideal for Ponds, Waterfalls, and Fountains up to 2,000 Gallons

NEW

Hood Design

Designed to hide and protect mounted control panels from weather conditions

Compact Design

Sleek and compact to easily hide near smaller water features

Durable Housing

Built to last and can be buried to conceal

Easy-to-Use Controller

Simply set for your water feature size and enjoy the benefits

Storage Capacity

Store up to 32 oz. of water treatment

#96085 Dosing System SL

- Treat smaller water features with ease

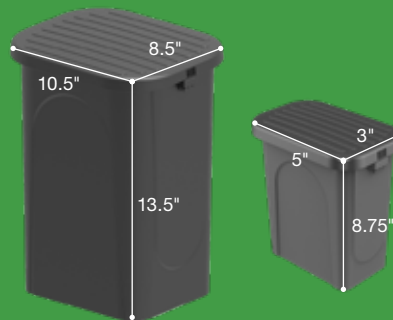

Includes: enclosure, control panel, treatment intake, internal and external tubing, and low-voltage transformer

Packaged Weight: 3 lb.

Packaged Dimensions: 6"L x 4"W x 10"H

MSRP: \$194.98

A photograph of a pond filled with lily pads. In the foreground, several large, green lily pads float on the water. A vibrant pink lotus flower is in full bloom on the right side. The background shows more lily pads and a small orange fish swimming in the water.

Aquatic Plant Care

Aquatic plants are an important part of the water garden. They provide beauty and naturalization with a huge array of plant choices. Most importantly, they help balance the pond's ecosystem and provide valuable biological filtration that removes nitrogen, ammonia, nitrates, and other minerals from pond water.

A large sheet of blue pond liner is being laid out on a sandy ground. The liner is wrinkled and has some small brown spots on it. In the background, there is a wooden fence and some green plants.

Liner, Underlayment, and Geotextile

Liner, underlayment, and geotextile are the pond's foundation. With a large selection of liners available, it is important to always determine whether the liner you choose is safe for fish that may inhabit the pond.

Rainwater Harvesting

The Aquascape Rainwater Harvesting System adds the beauty of a water feature to a rainwater collection system for capturing, filtering, and reusing our most precious resource – water! Whether you choose a Pondless Waterfall or bubbling urn to add to your landscape, you'll be happy knowing your rainwater harvesting system not only looks great but is beneficial for the environment too.

STEP 1: Choose The Water Storage System

Each Aquascape Rainwater Harvesting System Water Storage Kit includes: Pondless® Waterfall Vault Extensions(s), AquaBlox®, 45 mil EPDM Liner, and two pieces of non-woven geotextile, underlayment (one to surround the AquaBlox® and one to surround the exterior of the EPDM liner).

Included to bring the feature to life at night

#44001 Rainwater Harvesting Pondless® Waterfall Add-On Kit

MSRP: \$4,029.99

Pondless® Waterfall Components

- | | | |
|---------------------------------------|----------------------------------|----------------------|
| 1 Downspout Filter | 4 Pump | 7 Waterfall Spillway |
| 2 Pondless Waterfall Vault Extensions | 5 AquaBlox Water Storage Modules | 8 Overflow Drainage |
| 3 Pondless Waterfall Vault | 6 Liner and Underlayment | 9 Rocks and Gravel |

STEP 2: Choose The Water Feature

Pondless Waterfall Vault

Perfect for pump placement and access

Flexible PVC Pipe

Includes 2" 25 ft. pipe and overflow kit to manage excess water

OPTION
2

AquaSurge 2000-4000 Adjustable Flow Pond Pump

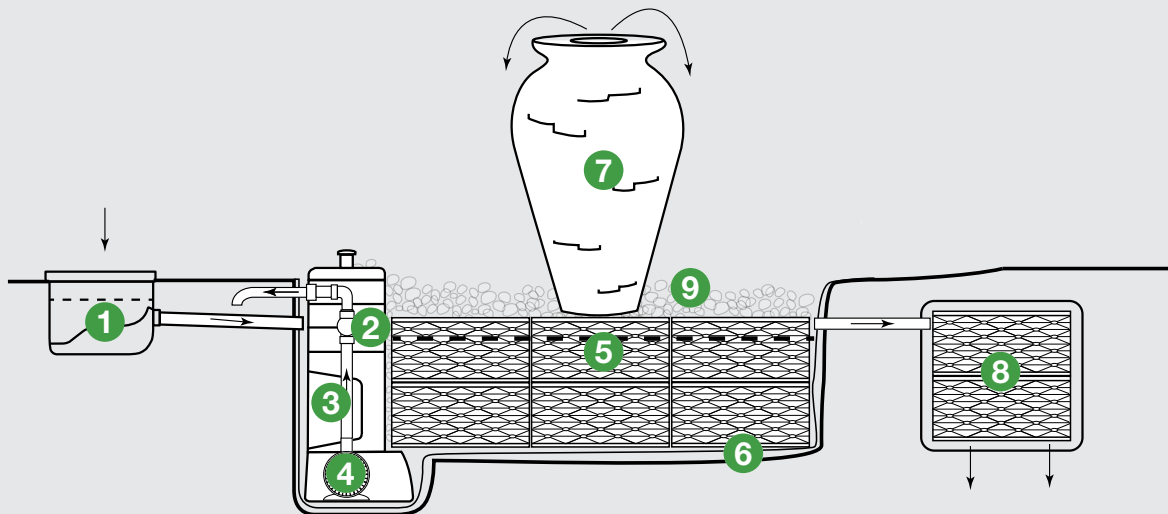

Provides customizable water flow rates using a handheld, wireless remote control

Smart Control Receiver

Makes it easy to connect your pump to your smartphone or tablet, allowing for wireless flow adjustment and customized scheduling

#44000 Rainwater Harvesting Fountain Add-On Kit

MSRP: \$2,274.99

Fountain Components

- 1 Downspout Filter
- 2 Pondless Waterfall Vault Extensions
- 3 Pondless Waterfall Vault
- 4 Pump
- 5 AquaBlox Water Storage Modules
- 6 Liner and Underlayment
- 7 Decorative Fountain
- 8 Overflow Drainage
- 9 Rocks and Gravel

STEP 3: Choose The Decorative Fountain

Small Stacked
Slate Sphere

Medium
Scalloped Urn

Natural
Mongolian Basalt
Columns Set of 3

Small Stacked
Slate Urn

Item Number	78287	78239	58062	98939
MSRP	\$709.98	\$1,169.98	\$2,599.98	\$709.98
For more information, see page	162	164	166	165

For more fountain options, [see page 158-166](#)

Rainwater Harvesting Downspout Filter

Packaged Weight: 10 lb.

Packaged Dimensions: 27"L x 25.25"W x 15"H

MSRP: \$429.99

[#30166](#)

Add A Downspout Filter

The Downspout Filter is installed at the base of the downspout ready to capture rainwater and remove a variety of debris. Incoming rainwater is passed through a series of mechanical filters that remove leaves, twigs, seeds, and small sediment that accumulate on the surface of the roof between rain events. Add a Downspout Filter to any fountain or Pondless® Waterfall feature and make it sustainable!
